Legislation awarding funds to LSSU signed into law

LANSING – Legislation awarding money for infrastructure and technology improvements to Lake Superior State University was signed into law, announced state Sen. Jason Allen, R- Traverse City.

“I am pleased to know that LSSU will receive the funds they need to push ahead and plan for their future,” Allen said. “This money will allow Lake State to better serve the students and local community, continuing their tradition of excellence.”

Public Act 468, in addition to addressing fiscal challenges with the State Fair, will provide a \$192,700 grant to LSSU from the general fund. Originally, the funds were committed as part of the Capital Outlay Budget, which was not acted upon before the end of the session year.

“Lake Superior State University has historical buildings that need infrastructure improvements,” Allen said. “The university will also be able to use these funds to update their technology, helping to ensure their students stay competitive.”
